EDUCATION

Madhav Institute of Technology and Science

Gwalior, MP

B.Tech in Information Technology | **CGPA: 8.124**

Expected: May 2027

Relevant Coursework: Machine Learning, Artificial Intelligence, Data Structures & Algorithms, DBMS, Statistics, Linear Algebra

TECHNICAL SKILLS

AI / Generative AI: Retrieval-Augmented Generation (RAG), Agentic AI Systems, LangChain, LangGraph, LangSmith, OpenAI API, Anthropic (Claude), Google Gemini, AWS Bedrock, Hugging Face, Prompt Engineering, AI Orchestration, MCP (Model Context Protocol)

Vector Databases & Search: Pinecone, Qdrant, MongoDB Atlas Vector Search, FAISS, ChromaDB, BGE Sentence Transformers, Hybrid Search (Dense + BM25)

ML / Modelling: Scikit-learn, XGBoost, Random Forest, Gradient Boosting, KMeans, PCA, SHAP, SMOTE, Feature Engineering, Hyperparameter Tuning

Databases: MongoDB, MongoDB Atlas, Supabase (PostgreSQL), Neo4j (Graph DB), Redis, SQL

Deployment & Cloud: GCP Cloud Run, Docker, FastAPI, Streamlit, Git, REST APIs, Pydantic V2

Languages & Data: Python, SQL, TypeScript, Java, C/C++, Pandas, NumPy, Matplotlib, Plotly

Computer Vision: OpenCV, InsightFace (ArcFace), MediaPipe

EXPERIENCE

AI Engineer Intern (GenAI & Agentic AI)

Aug – Sep 2026

CogKnowEdge Solutions

Remote

- Designed and implemented **7+ hands-on RAG lab systems** covering Agentic RAG, Hybrid RAG, Graph RAG, MultiVector RAG, OCR RAG, and Vectorless RAG using LangChain, LangGraph, Qdrant, and Neo4j
- Deployed AI applications on **GCP Cloud Run** using Docker; integrated MongoDB Atlas Vector Search and Supabase (PostgreSQL) as backend datastores for production AI workflows
- Built prototypes using OpenAI, Claude, Gemini, and LangFlow across enterprise AI consulting use cases; developed hands-on AI labs and technical documentation for GenAI and Agentic AI training programs

Undergraduate Research Assistant

Jan – May 2026

Madhav Institute of Technology and Science

Gwalior, MP

- Architected a Two-Stage XGBoost Regressor pipeline ($R^2 = 0.96$, RMSE = 215.6 vs 1,452.3 baseline) with GridSearchCV tuning and a Dynamic Physical Clamping algorithm ensuring zero invalid predictions at inference
- Integrated LLM APIs with zero-trust key validation to perform semantic synergy scoring and generate structured JSON negotiation reports, deployed as a stateless FastAPI microservice
- Conducted end-to-end EDA on 50+ feature datasets, reducing model noise by 30% through correlation-driven feature selection

PROJECTS

Code Archaeologist — Git History RAG System

2026

Python, RAG, Pinecone, BGE Sentence Transformers, BM25, LLM APIs, Redis, Streamlit

- Built a production-deployed **Generative AI / RAG pipeline** ingesting any GitHub repository, classifying commits by developer intent, and storing embeddings in Pinecone with per-user namespace isolation and TTL-based Redis cleanup
- Implemented hybrid retrieval combining dense semantic search (BGE sentence transformers) with BM25 keyword reranking (60/40 weight); deployed on Streamlit Cloud with IP-based Redis rate limiting and admin access control

Tejaskrit — AI Interview Platform (Team Project, 1st Runner-Up SSH '26)

2026

Python, FastAPI, OpenAI API, Whisper, MediaPipe, OpenCV, React, TypeScript

- Contributed to an adaptive LLM-powered interview engine generating role-specific questions dynamically based on answer quality; engineered real-time multimodal pipeline fusing Whisper audio signals with MediaPipe video signals

Customer Segmentation & Churn Prediction

2025

Scikit-learn, XGBoost, SHAP, SMOTE, Pandas, SQL, Streamlit

- Engineered 22 RFM features from 2.5M+ transactions; applied KMeans (k=4) and trained a Random Forest classifier (ROC-AUC 0.8793); used SHAP to translate outputs into a \$233,917 revenue-at-risk estimate

ACHIEVEMENTS

1st Place (Team Project) — IKIGAI '26 National Level Hackathon | AITR, Indore | Aug 2026

1st Runner-Up (Team: Tejaskrit) — SSH '26 National Hackathon | SSH | Feb 2026

Mathematical Foundations of Machine Learning | NPTEL, IIT Madras | Score: 73/100 | 2026

Top Performer in WebDev Track — Hacksagon | ABV IITM Gwalior | Apr 2026
